

# Blandade räknesätt

Här nedanför hittar du totalt 979 räkneuppgifter. Det är såklart otroligt enformigt att räkna alla dessa på en gång. Därför är det strukturerat som så att du, i genomsnitt ska räkna fem uppgifter per dag hela läsåret, förutsatt att läsåret är 178 dagar.

Notera att de flesta räkneuppgifter är ganska svåra och kräver miniräknare.

## Lycka till!
