

English Translations

This learning resource contains two texts to read. At the end of each text, you have to translate the words that are marked in the text itself. You can write all your answers directly on this paper.

1. Read and translate the texts below.

A company that is successful

In 2008, a person named Mike saw an increased demand for fast food restaurants that actually served good food. He was disappointed and his friends too. They liked fast food overall, but in their city, Seattle, there weren't any fast food restaurants. The only restaurant there was an automat that served sallads. But they decided to change that. After a little research, Mike found a great place for a restaurant. He bought the property and moved in upstairs while he started to renovate the large 1st floor in the building and transform it into a fast food restaurant. He added a kitchen and a dining room and named the restaurant "Mike's place". From the first day, it's been a success, especially his vegeterian menu. And, the restaurant is just continuing to grow.

Travelling to Melbourne, Australia

A trip to Melbourne is worth it, if you ask the travel reviewer Carl. He traveled to Melbourne this summer and he's got some things to share. First we asked him: "What hotel is best". He said that you could go to any hotel, just read the reviews online.

- The best thing with Melbourne is the different travel options. You can travel yourself, as a family and more, he says.

A plane trip to Austrailia takes about 20 hours if you travel from New York to Melbourne according to the website fligtime-calculator.com.

- It might be a long trip, but it's worth it! claims Carl.
