Happy new year! - Writing Assignment

Now, it is a new year. Your assignment is to write about how you thought that the last year was and how you hope that the new year will be.

Here is what you have to write about:

• What you think about last year. Include thoughts and descriptions!
• Some highlights from the last year. Tell some fun things that you did!
• What you hope to do in the new year and what you think about it!

Here are some extra things that you can include:

• Do you have any new year resolutions? If so, what are they?
• If you are back from a break from school, what did you do during the break? Was it fun?
• Other things that you think are related to the subject “Write about last year and the new year”.

Good luck!

You can write the text using the lines below or using a writing book, paper or something similar.
