

The Newspaper wants your opinion!

The newspaper is making an article about school and they are going to write about what you think about your school. They are going to put everyone's opinions in the article. Write about what you think about your school and why you think that. You should also tell about how your school can improve. Here are everything that you are going to have in your text:

- Write your opinion about your school and why you think that.
- Tell about some things that your school can improve and how.
- Some special work or project that you have done in school.
- Great memories that your school has given you.

The workflow is as following:

Make a mindmap
and write a first draft
of your text.

Hand the first draft
in to your teacher.

Get your text back
with feedback and
then improve it..

Hand your final text
in and then you are
done!
